Eigenmann & Veronelli Announces New Distribution Agreement with Evolved by Nature for Best-in-Class Bioactive Peptides (BPs) in Italy, Spain, and Portugal

Pero (MI), Italy, July 17, 2025 - Eigenmann & Veronelli (EV), Italy's leading and internationally focused distributor of specialty chemicals and food ingredients, today announced a strategic partnership with **Evolved by Nature**, a life sciences company that is pioneering the discovery and production of novel, naturally derived bioactive peptides (BPs).

As part of this agreement, EV will distribute a broad portfolio of bioactive peptides (BPs) for skincare in Italy, Spain, and Portugal.

These three high-quality ingredients—**Activated Silk™ 33B-α**, **Activated Silk™ 27P-α**, and **Activated Silk™ 8A-α**—can be used in a wide range of applications and formulations in the beauty and personal care industry, including products that support skin barrier health, stimulate natural collagen production, and reduce the appearance of hyperpigmentation.

Specific formulation requirements can be precisely met with these ingredients, ensuring high flexibility and efficiency in product development and manufacturing.

Chris Valencius, CMO at Evolved by Nature, said: *“We look forward to a robust partnership with EV, and bringing our naturally derived Activated Silk™ peptides to the skincare markets in Italy, Spain, and Portugal. EV's expertise and energy will help to bring innovative, sustainable skincare solutions to brands looking for new ways to rapidly grow in their markets, whether through new claims, new product formats, or better performance.”*

Mauro Avidano, Commercial Director at EV, added: *“Customers can now benefit from the highest quality bioactive peptides, essential for developing effective and more sustainable solutions. The expanded product range strengthens our role as a key supplier to the international beauty and personal care industry.”*

***EVOLVED
BY NATURE™**

EV GROUP

Founded in 1910, Eigenmann & Veronelli Group is an international solutions provider of specialty chemicals and food ingredients. Headquartered in Pero, Italy, EV has a direct presence in Italy, Iberia, Turkey, and the U.A.E. and a commercial reach in more than 45 countries. In 2024, EV generated a consolidated turnover of 347 million euros with more than 350 employees. With over a century of experience, EV is synonymous with effectiveness and efficiency, combining local market knowledge with chemical innovations, and offering a high-quality and diversified portfolio of specialty chemicals and food ingredients as well as tailor-made application, marketing and supply chain solutions, technical and formulation support, and comprehensive regulatory know-how for a wide range of industries.
