**Eigenmann & Veronelli Group announces a strategic partnership with Röhm GmbH for the distribution of DEGADUR® methacrylate-based resins across Europe and the Mediterranean region**

Pero (MI), Italy, 18 March 2026 – **Eigenmann & Veronelli Group** (“EV Group”), Italy’s leading and internationally oriented distributor of specialty chemicals and ingredients, further strengthens its Coatings & Construction portfolio through a new strategic agreement with **Röhm GmbH**, a global leader in the methacrylate chemistry.

The partnership extends the collaboration to the distribution of the full **DEGADUR®** range, Röhm’s high-performance reactive methacrylate resins engineered for industrial and commercial flooring applications. These solvent less systems, which cure rapidly even at low temperatures, ensure minimal downtime, excellent mechanical and chemical resistance, and broad application versatility on multiple substrates including concrete, cement, steel, tiles and asphalt.

With this agreement, EV consolidates its distribution presence in Italy, the Iberian Peninsula, Turkey, Poland, Greece, Albania, and Slovenia, bringing advanced technological solutions to customers and enhancing its role as a strategic partner for high-value industrial projects.

**Simone Tortora, Business Unit Manager Coatings & Construction at EV, says:**

*“We are excited about our new partnership with Röhm. Together, we will be able to deliver the best solutions in the construction sector and support our customers in formulating superior products. This collaboration represents an important step forward in our commitment to innovation and sustainability within the industry. By combining our strong innovation capabilities with Röhm’s extensive know-how, we are well positioned to meet the growing market demand for both high-performance and environmentally responsible formulations.”*

**Holger Tinz, Head of Sales Methacrylate Resins EMEA at Röhm, states:**

*“Our DEGADUR® resins are engineered for fast curing, durability and reliability under demanding industrial and commercial flooring conditions. With Eigenmann & Veronelli’s strong technical capabilities and market proximity, we can ensure that customers receive not only high-quality materials, but also the application support required for optimal performance on site.”*

### **RÖHM**

Röhm is one of the world's leading manufacturers in the field of methacrylate chemistry and supplies customers in fast-growing markets including the automotive, construction, and medical technology industries. We serve a global market with our MERACRYL® methacrylates and PMMA molding compounds under the PLEXIGLAS® brand, which we manufacture in our worldwide production network. Our high-quality products offer a wide range of applications – from paints, coatings, car taillights, medical products, aircraft glazing and household appliance displays to road markings.

Around 2,800 employees worldwide play a part in our success. With production and research sites across Europe, North America, and China, we combine regional presence with global expertise and create added value for our customers.

Polymethyl methacrylate (PMMA) products from Röhm are sold on the European, Asian, African and Australian continent under the registered trademarks PLEXIGLAS® and PLEXIMID®, in the Americas under the registered trademarks ACRYLITE® and ACRYMID®.
