

Press Release

Eigenmann & Veronelli Expands Partnership with Arkema Thiochemicals' Business to Strengthen Its Offering in Lubricants, Detergency and Leather Applications in Italy

Pero (Milan), Italy – August 4, 2026 – Eigenmann & Veronelli Group (EV), a leading international distributor of specialty chemicals and ingredients, is pleased to announce the expansion of its distribution partnership with the Thiochemicals business unit of Arkema, a world leader in Specialty Materials.

A long-standing partner for the distribution of **Arkema polysulfides** in the Performance Solutions market, EV is now broadening its collaboration with Arkema to include the company's **Detergency, Lubricants and Leather product lines** in Italy.

Under the agreement, EV will be responsible for the distribution of Arkema Thiochemicals' portfolio dedicated to cleaning, lubrication and leather applications, further strengthening its position in key industrial markets and providing customers with access to innovative, high-value solutions.

The addition of these product lines significantly enhances EV's offering across a wide range of applications, including industrial and institutional cleaning, household detergents, leather processing, metalworking fluids, and specialty lubrication systems.

"By combining ARKEMA's advanced technologies with EV's strong technical expertise, market knowledge and customer proximity, the partnership aims to deliver greater value, performance and efficiency to customers throughout Italy," commented **Paolo Zucchelli, Business Unit Manager Performance Solutions at EV Group**.

"We are pleased to expand our collaboration with EV in Italy," said **Adrien Lapeyre, Sales Director Thiochemicals at Arkema** *"Their strong market presence and technical expertise make EV a valuable partner as we continue to grow our detergency, lubricants, and leather businesses. Together, we are committed to delivering effective solutions and supporting our customers' evolving needs in these key segments."*

About EV GROUP

Founded in 1910, Eigenmann & Veronelli Group is an international solutions provider of specialty chemicals and food ingredients. Headquartered in Pero (MI), the company operates in more than 45 countries worldwide and has a direct presence in Italy, the Iberian Peninsula, Turkey, the United Arab Emirates and Poland. With consolidated revenues of 340 million euros in 2025 and over 350 employees, EV is synonymous with effectiveness and efficiency, combining local market knowledge with chemical innovations, and offering a high-quality and diversified portfolio of specialty chemicals and food ingredients as well as tailor-made application, marketing and supply chain solutions, technical and formulation support, and comprehensive regulatory know-how for a wide range of industries.

About Arkema

Building on its unique set of expertise in materials science, Arkema offers a portfolio of first-class technologies to address ever-growing demand for new and more sustainable materials. With the ambition to become a world leader in Specialty Materials, the Group is structured into three complementary, resilient and highly innovative segments dedicated to Specialty Materials - Adhesive Solutions, Advanced Materials, and Coating Solutions - accounting for some 85% of Group sales in 2025, and a Primary Materials segment regrouping well-positioned large scale industrials activities. Arkema offers cutting-edge technological solutions to meet the challenges of, among other things, new energies, access to water, recycling, urbanization and mobility, and fosters a permanent dialogue with all its stakeholders. The Group reported sales of around €9.1 billion in 2025 and operates in some 55 countries with 20,700 employees worldwide.
