

Press Release

EV announces exclusive distribution partnership with ADM for AromSense™ palatants in Italy

Pero (MI), Italy, September 10th, 2026 – Eigenmann & Veronelli (EV), a leading distributor of specialty chemicals and food ingredients in Italy, is pleased to announce a new exclusive distribution agreement with **ADM**, a global leader in animal nutrition and flavor solutions.

Under the agreement, EV will distribute in Italy four products from ADM's **AromSense™** palatants portfolio for the animal feed market: **PAN TEK Spicy Apple, COVATONE 430, PAN Red Summer Fruits and PAN TEK Robust RB.**

Designed to enhance feed palatability and support feed intake across a variety of animal species, these solutions combine carefully developed fruity and dairy-sweet flavor profiles that contribute to a more appealing feeding experience and improved overall feed acceptance.

*"We are delighted to partner with ADM and further strengthen our portfolio for the animal nutrition market," said **Stefano Carnelli, Business Unit Manager Nutrition at EV.** "ADM's expertise and innovation in feed flavoring solutions complement our offering and enable us to provide customers with added value, technical support and high-quality solutions tailored to their needs."*

Andrea Giorgino, Sales Director Italy at ADM, commented: *"We are pleased to start this collaboration with Eigenmann & Veronelli, a well-established and trusted partner in the Italian market. Through EV's strong commercial network and technical expertise, we can further expand access to our AromSense™ palatants portfolio and better support customers in developing effective and innovative feed solutions."*

This partnership further reinforces EV's commitment to delivering innovative ingredients and technical expertise to the Italian animal nutrition industry, while supporting customers in addressing evolving market demands with reliable and high-performance solutions.

EV GROUP

Founded in 1910, Eigenmann & Veronelli Group is an international solutions provider of specialty chemicals and food ingredients.
